

Huzzah

Bring your customers
back again.

And again. And again.

Today customers have more choices than ever. That's why it's critical that business owners find more effective ways to attract new customers and give them a reason to come back.

For years businesses have seen more customers and more profits by introducing reward and loyalty programs. But building these programs required a high dollar investment. That is... until now.

Say hello to Huzzah. The world's greatest loyalty program. Built specifically to provide small and medium size businesses like yours all the benefits of big box loyalty programs... at a fraction of the cost!

Here's how it works. After signing up for Huzzah you'll receive a tablet to display at your business and a box of loyalty cards to provide your customers. Every time they

come in, your customers will scan their smartphone or loyalty card to earn coins. The more visits, the more coins they get. Using their coins they can cash in on a variety of exclusive rewards. Your customers earn great rewards and keep coming back... it's a win-win!

Gone are the days of lame punch cards. With Huzzah you control the rewards. Created by you - for your customers. That means the right rewards, relevant to your brand. Maybe it's a free appetizer, half off a haircut, or a chance to arm wrestle the owner. Loyalty has never been this easy or fun.

Huzzah works.
Here's why:

With Huzzah, you'll find your customers happier than ever and returning more often.

New customers will discover your business through recommendations and our loyalty network.

Loyalty customers are 70% more likely to make repeat visits.

Loyalty customers are more likely to recommend your business to a friend.

Businesses with loyalty programs are more profitable.

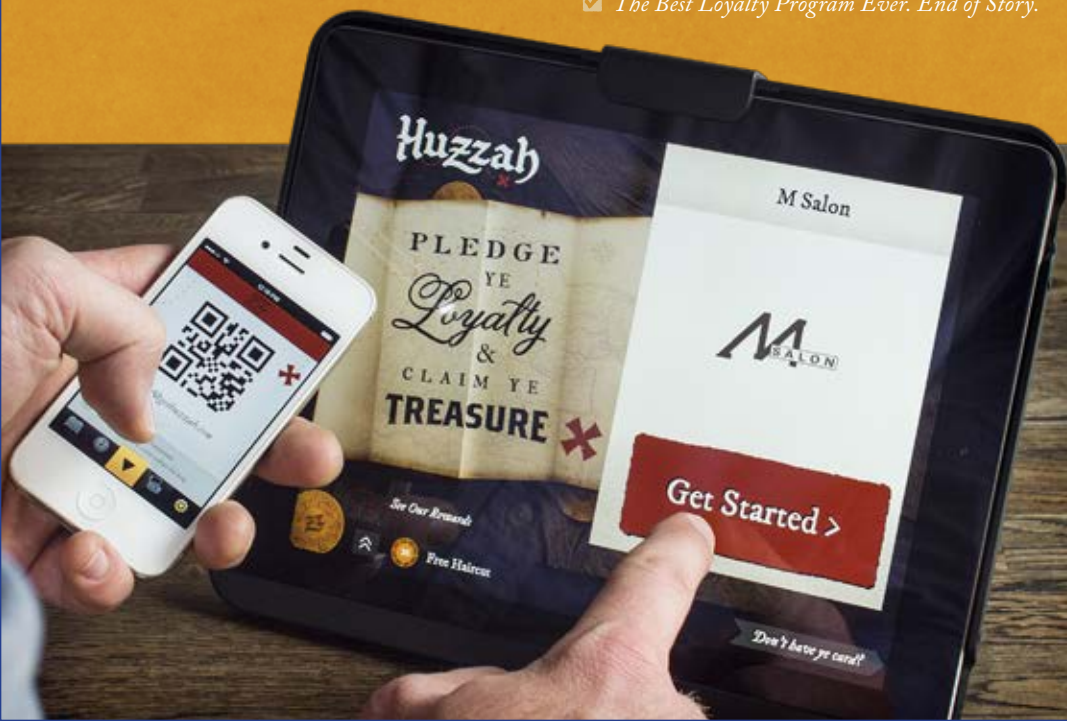

An increase in new customers and repeat business means increased revenue.

✖ We created Huzzah to help you connect with your regular customers, discover new customers and keep them all coming back—again and again.
